

## OPONENTS OF SEDITION BILL MEET DEFEAT

Conference Report on Measure Adopted in House By Vote of 48 to 26

(By Associated Press) Washington, May 4.—Protract controversy in the senate over a sedition bill to severely penalize disloyal acts and utterances and interfere with liberty loan efforts, the army draft ended today in adoption of the conference report on the measure by vote of 48 to 26. The house is expected to agree to the report next week.

Opponents of the measure who were contended that freedom of speech and the press would be curtailed lost their fight to strike out a clause giving the master general authority to withhold mail believed to violate espionage laws and to restore a France amendment excepting on the law truthful statements made with good motives.

The bill was initiated a year ago and provides maximum penalties of twenty years imprisonment and a \$10,000 fine or both for a wide variety of disloyal acts, amends the espionage act and, with the "woman spy" bill recently passed, completes the cycle of legislation urged by the department of justice as necessary to cope with the government with power to deal with sedition and disloyalty and prevent mob violence which has resulted for the department's inability to secure convictions of persons making disloyal utterances. That the legislation is unnecessary, unconstitutional, too drastic and confers too much discretion upon administrative officials have been the principal arguments of those opposing it. The final vote today was along on-partisan lines, many Republicans joining a majority of the Democrats in supporting the legislation. Two Democrats, Senator Hardwick of Georgia and Reed of Missouri, joined with 24 Republicans in opposition. The vote follows:

**For Adoption.**  
Democrats—Ashburn, Bankhead, Beckham, Chamberlain, Culbertson, Fletcher, Gerry, Guilford, Henderson, Hitchcock, Hollis, Jones, New Mexico; Kirby, Lewis, McKellar, Myers, Overman, Owens, Phelan, Pittman, Pomeroy, Randall, Sausbury, Shafroth, Sheppard, Shields, Simmons, Smith, Georgia; Smith, Maryland; Smith, South Carolina; Swanson, Thompson, Tillman, Trammell, Underwood, Walsh and Williams. Total, 38.

**Republicans—**Cott, Fall, Jones, Washington; Lenroot, McCumber, McLean, Nelson, Poinsett, Sterling and Warren. Total, 10.

Total, 48.

**Against Adoption.**

Democrats—Hardwick and Reed. Total, 2.

Republicans—Borah, Brandegee, Calder, Curtis, Dillingham, France, Gallinger, Groza, Hale, Johnson, California; Kenyon, Knox, Lodge, McNary, New, Norris, Page, Sherman, Smoot, Sutcliffe, Wadsworth, Watson and Weeks. Total, 24.

Total against, 26.

As redrafted by the conferees the bill's penalties apply, during the war to persons willfully uttering "disloyal, profane, scurrilous or abusive language about the form of government of the United States, the constitution, the military or naval forces, the flag or uniform of the United States, or any language intended to bring the form of government of the United States, the constitution, the military or naval forces, the flag or uniform of the United States into contempt, scorn, contumely or disrepute."

It also penalizes language tending to incite, provoke or encourage resistance to the United States, or to promote the cause of its enemies and willful display of the flag of any enemy nation.

Another important provision would punish statements designed to obstruct production of war necessities or the teaching or advocacy of any of the prohibited acts in the measure, while another general and broad provision makes the penalties apply to those who by word or act support or favor the cause of any country with which the United States is at war, or by word or act oppose the cause of the United States therein.

Another section of the bill which was the most vigorously attacked in the senate provides that if the postmaster general deems any mail violative of the espionage laws as amended by the bill he may withhold it from addresses. Another clause provides for dismissal of federal employees committing any disloyal act or uttering disloyal remarks. One of the chief controversies in the senate was over elimination by the conferees of the France amendment providing that the bill should not apply to truthful statements made with good motives—the general France of Maryland, its author, and Senator Johnson of California led the fight to retain the amendment, declaring it would preserve constitutional liberty of speech.

## FLAMES THREATEN ROCK ISLAND ARSENAL

Fire Discovered in One of Largest Warehouse Buildings—Extinguished by Prompt Work of Firemen—Investigations Started.

(By Associated Press) Davenport, Ia., May 4.—The entire Rock Island Arsenal plant for a time this evening was in peril. Fire was discovered in the rafters of one of the largest warehouse buildings. This building was stored with explosives of the most powerful nature. Prompt work by the firemen held the flames in check before it reached the explosives. The origin is unknown. Investigations have been started.

A brush fire started earlier in the evening at one end of the island on which the arsenal is located. While the arsenal fire department was busy with this blaze the fire in the explosive building was discovered.

Fire departments from Davenport, Rock Island and Moline were rushed to the arsenal and succeeded in extinguishing the fire before great damage was done.

## ERROR INVALIDATES ALLOTMENT LIST

Draft Quotas for County and City Exemption Board Districts Will Be Ready Today.

Springfield, Ill., May 4.—After draft quotas for Illinois county and city exemption board districts, to cover the May call, had been prepared by the adjutant general's office today, an error was discovered that invalidated the entire list of allotments.

As a result, the office force will go to work tomorrow morning to refigure the quotas. It is expected that they will be ready shortly after noon.

## DIABASIC ORDER AFFECTS FLORISTS

Local florists are naturally very much interested in the order of the fuel administration which provides for the year beginning April 1. No florist shall use more than 50 per cent of the amount of coal he has used during any one of the three preceding years. This order means that florists must curtail the stock they carry during the winter months and so provide heat for a less amount of space.

The order applies not only to florists but also to vegetables if grown in green houses. It is very drastic in that it provides that not more than 50 per cent of the fuel of any description shall be used and the greenhouse owner cannot utilize wood, sawdust or even pea, for fuel, as would have been done in some cases if the law had other provisions. The action, according to the Florist Review, issued in Chicago, was not taken until after a series of conferences between fuel administration representatives and a number of leading florists. The order was stronger than expected and the allowance of fuel less than the florists hoped for, although the trade paper mentioned voices a spirit of co-operation and says that the florists realize that the country is at war and that industry must co-operate in every way that is desired.

## SALVATION ARMY WAR CAMPAIGN

A Big Drive Shortly to Be Undertaken in Morgan County for \$5,000.

The grand work of the Salvation Army needs no commendation for it is too well known. At the front in France it is working right along with the men in the trenches and in no way duplicating or interfering with the work of the U. M. C. A. or Red Cross, but doing its own work where the others are not operating.

The State Council of Defense has declared a campaign for \$400,000, and the apportionment to this county is \$5,000. This should be raised easily if all do their duty. The local committee was recently called by the chairman, Rev. W. E. Spoon, and decided to carry through this campaign between the 12th and 15th of this month. The plan is to have a grand patriotic meeting in the opera house next Sunday, the 12th, at 3 p. m., when Rev. Charles T. Wheeler, a noted orator, is to be present and deliver his famous lecture, "The Kaiser Doomed." He has delivered this lecture at other places, arousing untold enthusiasm and it will be a great treat here to listen to him.

## BIBLE CLASS WILL GIVE ENTERTAINMENT

The Philathea Bible class of Central Christian church will give an entertainment in the Sunday school rooms of the church Tuesday evening at 8 o'clock. There will be a program of vocal and instrumental music, readings and three reels of moving pictures. "The Unknown God," Henry B. Walthall, one of the stars in "The Birth of a Nation," and Blanch Sweet, also a well known star, will portray the leading characters.

## JOHN TUTT HERE.

John Tuttle, for many years a resident here but now living in Indiana Harbor, was in the city for a short time Saturday evening. Mr. Tuttle was on his way home from St. Louis, where he was called by the death of a brother. He was for a number of years a member of the Jacksonville police force and says he is doing well in his new home.

## AUSTRIAN PARLIAMENT DISMISSED

Government Embarrassed By Divisions in Legislative Body—War Summary

(By Associated Press) Austria-Hungary supplies some of the most important items of the current news, with a critical economic and political situation officially conceded to be developing at home just as her armies at the front are apparently about to be launched in a new attack on Italy.

The crisis in Vienna is marked by the dismissal of the Austrian parliament by the emperor's order and the declaration that forcible measures would be taken to make assumption of its sessions impossible. A statement issued makes it clear that the government was embarrassed by the divisions in the legislative body over the grave food situation and the various racial grievances in the Austrian body-politic and desired a free hand in the next few months.

Such drastic action, taken in the face of the unrest throughout Austria-Hungary as the result of the war's privations and the ever-recurring racial differences will cause the development of the situation in the dual monarchy to be followed with the keenest interest.

Meanwhile Vienna despatches have reported Emperor Charles leaving for the front and have announced greatly increased activity along the Austro-Italian lines, where a renewal of the Teutonic offensive has long been threatened.

The Rome official statement does not give a like picture of the front line activities but records intensive aerial operations with the entente airmen evidently having the better of the encounters and bringing down fourteen enemy machines.

The German offensive in Flanders has been held up now for virtually five days since the enemy waves last dashed against the rock-ribbed defense of the British and French early last week and the Y-front line stood firm under the attack.

General von Arnim evidently has been forced into this inactivity by the severity of his losses and the time necessary to marshal new forces for fresh blows. Concededly however, the enemy has fresh troops for a thrust of even greater power, if he thinks it advisable to employ them here and there have been indications for the last day or two that he was preparing to do so.

One such hint of an impending thrust developed Saturday morning when the German artillery began violently to pound the Franco-British line from Loos to the south of Ypres where his main effort of April 29 was made. The bombardment was not speedily followed up by an attack, however as was the case last Monday. Meanwhile there has been a strengthening of the allied defense at the Red Cross to make inquiries through Switzerland as to what had happened to him.

Just at the time, Lieutenant Meissner himself jumped out of an automobile and walked toward the group gathered about the hangar.

"Well," he said, "I saw him at about 5,000 meters there was another machine which I believe was a French one, headed in the direction of the German line. I just sailed in first, but the boche swung down toward the earth when I was just above him. I went down just after him, firing all the time."

"Then he straightened out and turning his wing point quickly rammed my wing, but as that was happening, I cut loose with my gun again. Smoke came from the German machine which headed for the interior of Germany and we both were soon over his territory."

"I thought that might be some sort of camouflage for a get-away, for they tell me these Germans are full of tricks, so I kept right on his tail. Then he began to drop, red flames streaming from him. I knew that I had him and that I had fired 200 shots but I also knew my machine was damaged for the interior of Germany and headed for home, but I thought I had better come down safely inside our lines than to risk a flight all the way, so I did it and there you are."

"Then the lieutenant went over and told his mechanic about it. The pair stood beside another airplane, on the wing of which had been pasted as 'a hoodoo chaser' a Liberty Loan poster, showing liberty waving the American flag over the heads of the American soldiers and bearing the inscription:

"Fight or buy Liberty bonds."

## OVERSEAS CASUALTIES

## YOUNG LIEUTENANT BRINGS DOWN AIRPLANE

James A. Meissner Receives Congratulations from Comrades—Makes Report with Bashful Grin on His Face—Describes Fight.

With the American Army in France, May 2.—(By The A. P.)—Lieutenant James A. Meissner, whose home is in Brooklyn, and who brought down his first German airplane today on the American front northwest of Toul, returned to his hangar to receive the congratulations of his comrades and to make his report with a bashful grin on his face. The lieutenant is young and slight and "tickled to death" that he has won an enemy scalp hanging to his belt.

The story of his exploit, having trickled in over the telephone wire, the correspondent went to the young aviator. The lieutenant reported that a wing of Meissner's machine had been torn off by his opponent's airplane.

"Impossible," said one of the members of Meissner's squadron before the young aviator had returned to his billet. "If the boche really had scraped Jimmy with his wings, he would have called off the Red Cross to make inquiries through Switzerland as to what had happened to him."

Just at the time, Lieutenant Meissner himself jumped out of an automobile and walked toward the group gathered about the hangar.

"Well," he said, "I saw him at about 5,000 meters there was another machine which I believe was a French one, headed in the direction of the German line. I just sailed in first, but the boche swung down toward the earth when I was just above him. I went down just after him, firing all the time."

"Then he straightened out and turning his wing point quickly rammed my wing, but as that was happening, I cut loose with my gun again. Smoke came from the German machine which headed for the interior of Germany and we both were soon over his territory."

"I thought that might be some sort of camouflage for a get-away, for they tell me these Germans are full of tricks, so I kept right on his tail. Then he began to drop, red flames streaming from him. I knew that I had him and that I had fired 200 shots but I also knew my machine was damaged for the interior of Germany and headed for home, but I thought I had better come down safely inside our lines than to risk a flight all the way, so I did it and there you are."

"Then the lieutenant went over and told his mechanic about it. The pair stood beside another airplane, on the wing of which had been pasted as 'a hoodoo chaser' a Liberty Loan poster, showing liberty waving the American flag over the heads of the American soldiers and bearing the inscription:

"Fight or buy Liberty bonds."

## THIRD LIBERTY LOAN HEAVILY OVERSUBSCRIBED

Aggregate Subscriptions to War Credit Will Reach Four Billion Dollars

(By Associated Press) WASHINGTON, May 4.—For the third time within a year the American people have heavily oversubscribed a war credit. As the third Liberty Loan was closing tonight the treasury announced the campaign had been "an overwhelming success."

Altho \$3,000,000,000 was the formal goal of the campaign official reports including only a small proportion of today's avalanche of pledges showed the total as \$3,203,655,000, and there were indications that the aggregate would be increased to nearly \$4,000,000,000 next week when banks have time to tally the multitude of last minute applications.

The exact result of the campaign probably will not be known until late in the week. Official estimates placed the number of subscribers at between 12,000,000 and 15,000,000—far above the 10,000,000 of the second loan or 4,500,000 of the first—and some officials expressed the belief that the roll of bond buyers would be even greater. To them this was one of the most encouraging features of the loan.

All twelve federal reserve districts which were the largest campaign units oversubscribed, and a majority of the states made the same record. Delaware doubled its quota.

Bond selling continued actively in many cities up to a late hour tonight and banks stayed open in a final effort to roll up more subscriptions than the \$4,000,000,000 of the second Liberty Loan last October. Messages reaching Washington tonight indicated however, that the big subscriptions from corporations and business interests which were the features of the last hours of the second campaign were lacking owing to the imminence of income and excess profits paying time in June when more than \$3,000,000,000 in war levies will have to be paid to the government. The success of the campaign even without big individual subscriptions demonstrated that the loan was "popular" and that bonds will be widely distributed among all classes and localities of the country.

From early this morning to a late hour tonight messages to loan headquarters in the treasury told of energetic campaigning nearly everywhere and of thousands of belated subscriptions pouring in upon banks faster than they could be counted. Most district organizations this afternoon ceased trying keeping in touch with the current totals.

"We will continue work up to midnight," said a number of messages.

The headquarters review tonight described the final round-up in New York as "probably the most striking feature of the last day's campaign."

Within a few hours \$129,000,000 subscriptions were recorded sending the city and state of New York to their quotas.

The figure of \$3,203,655,000 officially recorded by the treasury, covered business up to three o'clock yesterday afternoon for all districts except New York which reported at four o'clock this afternoon and Boston and Philadelphia which reported at 11 o'clock this morning.

"It is impossible to estimate the amount of subscriptions taken in the various districts up to the close of business tonight," said the headquarters statement, "but the volume doubtless will show a substantial increase over these latest official figures."

The treasury did not venture any guess concerning the eventual proportions of the loan. Official figures by districts, incomplete and failing to show the Richmond, Cleveland and Atlanta districts over the top, were announced as follows:

District Subscriptions Percent.  
St. Louis ..... \$733,475,500; 133  
Minneapolis ..... 140,026,800; 133  
Kansas City ..... 162,765,300; 125  
Boston ..... 284,248,900; 113  
Philadelphia ..... 275,806,400; 110  
Chicago ..... 471,255,100; 110  
Dallas ..... 214,243,300; 105  
San Francisco ..... 214,243,300; 102  
New York ..... 912,500,100; 101  
Richmond ..... 128,111,950; 98  
Cleveland ..... 284,732,750; 94  
Atlanta ..... 72,038,700; 80

The Atlanta district which has been at the bottom of the percentage column since the campaign started April 6 sent this word tonight:

"Sales reported from all parts of the district indicate that the quota may be exceeded by more than 25 per cent. We believe that practically every community will go over the top."

## CONTRACT AWARDED.

C. C. Schureman has been awarded the contract for the building of the new community high school building at Athens, Illinois, at a contract price of \$4,745.00.

## DECLARE FOR CONSTANT OPPOSITION TO WAR

Illinois Socialists Also Seek Immediate Recall of Our Soldiers in France.

(By Associated Press) Chicago, May 4.—Illinois Socialists assembled in state convention in Chicago today declared for constant opposition to the war; for immediate recall of our soldiers from France, and asked that President Wilson demand at once a conference of delegates from all warring nations—selected by the various people, not the governments—to execute a peace for the world and democracy. For more than ten hours, in committee and on the floor the battle waged on this issue. The final decision with many delegates declaring the projected peace plan "insane" was registered only after Alderman John C. Kennedy, a delegate had contended for a resolution supporting the president.

The convention demanded too that the American government immediately recognize the Socialist Russian government—the Bolshevik.

The following state ticket was nominated:

For United States senator: William B. Lloyd, Chicago.  
For Congressman at large: Nicholas S. Dexter, Moline, Ill.; C. C. Brooks, Dixon, Ill.

## RESTAURANTS TO FORM ORGANIZATION HERE

M. F. Dunlap Has Called Meeting to Carry Out Suggestions of Food Administration—Plan Applies to Hotel, Restaurant and Boarding House Owners and Managers.

M. F. Dunlap, county food administrator, yesterday sent the following letter to a number of hotel, restaurant and boarding house owners and managers:

"Acting upon instructions of the United States Food Administration, a meeting is hereby called of hotel, restaurant and boarding house owners and managers to be held at the Avers National Bank, Wednesday, May 8, at 2:30 p. m., for the purpose of organizing an association which shall have for its object the protection of its members and the uniform observance of the food regulations.

Your attendance is urgently requested.

"M. F. Dunlap, 'Food Administrator.'

As will be noted above, an early meeting of hotel, restaurant and boarding house keepers will be held by the county food administrator, M. F. Dunlap, at the suggestion of the United States food administration. A copy of the above notice was sent to various restaurant and boarding house owners, by the notice of the meeting will apply to all, whether or not they received one of the notices. It is Mr. Dunlap's desire to include all those interested in hotels, restaurants or boarding houses in this organization.

The food administration has outlined organization plans which are being followed out in all localities. It is one purpose of the organization to assist the members in the observance of the laws and requirements by more clearly defined public opinion. What the public fully informed on the status of food supplies and acquainted with the various rules and regulations adopted by the food administration it will be easier for the restaurant keepers to satisfy the public. As it is now a patron of a public eating house occasionally resents the fact when he is unable to get just what he chooses to order, even if the request happens to be contrary to food administration requirements.

It is hoped that the country-wide organization of these hotel and boarding house people will be alike helpful to them and to the public. In addition to this matter of securing public support of food administration rules thru the organization the government no doubt will lay due importance upon the fact that heavy fines are provided for failure to obey the food laws.

## CRISWELL SCHOOL HELD PATRIOTIC MEETING

A patriotic meeting was held at Criswell school, south of Franklin, Saturday evening in the interest of the War Savings and Thrift Stamp campaign. A program of recitations, speeches and patriotic songs, was given. H. H. Vascocellos, county superintendent of schools, and Rev. W. E. Keenan gave splendid patriotic addresses. When subscriptions were called for the total reached \$4,550. The Ladies' Auxiliary of the National Council of Defense held a sale of pies and realized \$25.

A meeting will be held at Clayton Point school, west of Franklin, next Tuesday evening.

## INTERSTATE TRAVELERS.

Irvine Welborne, son of Henry Welborne, and James W. Elliott of the Elliott State bank, are enjoying an auto trip in a Chevrolet runabout. Their itinerary will embrace Indiana, Kentucky, Oklahoma, Kansas and other points, and they will be gone some time seeking health and recreation and taking in Camp Taylor near Louisville and other places of interest.

## LONG RANGE CANNON DAMAGED.

Paris, May 4.—News has just been received from the front that a French gun made a direct hit yesterday on one of the long range German cannon with which Paris is being bombarded and put it out of commission.

## AMERICANS RAID GERMAN LINES SUCCESSFULLY

Yanks Penetrate Thru Third Line of Enemy Positions Protected By Own Artillery

(By Associated Press) With the American Army in France, May 4.—(By The Associated Press)—American troops in the Lorraine sector yesterday morning carried out a raid on the German lines south of Hallsville on a six hundred yard front. After an intense but brief artillery preparation the infantry, accompanied by pioneers, went over the top and penetrated the German positions to the third line. They found not a single German. The attack was on a German salient. The artillery completely leveled the German positions and the pioneers finished the job by blowing up all the enemy works, thus eliminating the salient.

A German raid, which it was expected would be carried out on the sector south of Verdun, failed to materialize.

## French Official Note.

With the French Army in France, May 4.—An official note says:

"On May 3 three hundred American soldiers, after careful artillery preparation, raided the German lines at Dog's Wood in the Lorraine sector, penetrating thru the Germans' first, second and third lines.

"The raid constituted the first time that American infantry in this section have operated under the protection of their own artillery."

## FOOD SITUATION IN AUSTRIA-HUNGARY

Austria is Unable to Feed Populations of Northern Tyrol and Northern Bohemia—Y forced to Make Reluctant Concession.

London, May 4.—The straits to which Austria has been driven by the food situation is indicated in a despatch from Vienna via Zurich, which says that Dr. von Seydler, the Austrian premier, has been compelled to admit that Austria is unable to feed the populations of northern Tyrol and northern Bohemia, and that he has, therefore, consented that the former be attached for provisioning purposes to Bavaria and the latter to Saxony. This concession, the despatch adds, was wrested from him by leaders of the German parties after a conference lasting six hours. The Austrian government yielded with the greatest reluctance for the political consequences of this concession may be far-reaching. It is pointed out that it will accentuate the feud between the German and non-German races of Austria-Hungary.

## FIRE TRUCKS ARE IN GOOD CONDITION

Fire Chief Samuel Hunt has received a notification of the inspection of the American LaFrance fire trucks, which was recently made by H. A. Phillips, representative of the company. The letter is from Fred Fish, assistant general sales manager. It says there are no recommendations to make looking toward improved service and that the trucks show they are given good care.

## BOY SCOUTS ATTRACT ATTENTION

Yesterday afternoon the Boy Scouts again marched in interest of the Third Liberty Loan and with their natty uniforms, fine appearance, good marching and reports from their small cannon, made a decided impression. The youngsters are early learning a valuable lesson and deserve all praise for the work they have accomplished.

Joy riders will soon be up against it.

A French general has said: "An offensive that is checked is an offensive that has failed."

**PAGE TWO**  
The government has started to clean up her enemies at home. The nation must get rid of this class of people.

Germany has demanded of Russia an exchange of able bodied Germans for crippled and worn-out Russians. That is the generosity of Kultur.

As American troops are being rushed to France new levies are being made and the sight of women in the harvest fields will not be an unusual one this summer.

The American Red Cross has given one million dollars to stricken soldiers' families in France this year. You have been loaning money to the government, now be ready to give to the suffering.

If Germany has completed six super-submarines of 1,500 to 1,800 tons and a cruising radius

of 10,000 miles, and is rushing six more to completion, it is of pressing importance that the allied fleets should undertake the destruction of German ports.

Eighteen thousand Rumanians, captured by the Italians, while fighting under the flag of Austria, have asked permission to join the Italian colors in the war against the country with which they formerly served. With this addition to the Italian strength, three foreign forces, formerly with the central powers, are fighting with the allies.

Gutzon Borglum, apparently with authority of President Wilson, charges that the group of "American Junkers" that laid hold of aircraft production devised a contract system so ingenious "that it could in time absorb the entire appropriation and not deliver a single serviceable plane." Mr. Borglum adds that this in fact has largely been accomplished.

Illinois is truly memorializing her centennial year by going over the top in Liberty bonds and in every call made by the government, whether for men or money. When the centennial celebration was originally planned and appropriation made there was not a war cloud in sight as far as this country was concerned. "Not without this wondrous story can he write the nation's glory," and Illinois is daily adding to that "wondrous story" of patriotism and loyalty.

## THE PACIFIST.

Rev. James M. Gilles, of the Paulist order, gives this definition of the term "pacifist."

"Jesus Christ is the Prince of Peace; but Pontius Pilate was the Prince of Pacifists. He washed his hands, as they do, of the right and wrong of the whole matter. But while he was washing his hands with water he was drenching his soul with blood."

And again:  
"If my neighbor calls 'Help! Murder!' in the night, and I bury my head in the bedclothes and

pretend I hear nothing, I'm a pacifist. And, incidentally, I'm a liar and a sneaking coward."

"In making this decision I have no doubt that it is the only course for me to follow and accordingly I postpone until a more propitious time the ambition I have had to serve the people of Illinois in the United States senate.  
"The present unwavering devotion of the Republican party and its leading members to service and sacrifice for the nation is a matter of pride to everyone who loves the party and knows its traditions. In this hour it must be assured that its candidate for senator will be one whose loyalty is wholly above suspicion and whose wisdom and attainments are sufficient to meet the great problems of government which are and will be a part of the war."

## IF BENEATH OUR STARS I FALL.

(A Soldier's Goodbye.)

Place for me when gone afar  
In the window one bright star,  
And Old Glory over all.  
Let no pall rest on the soul,  
Spirit free from gloom and dole  
If beneath our "stars" I fall.

Let there be no scolding tears,  
Mourn me not through the years  
When in memory you recall.  
Know I did not die in vain,  
Count it never loss but gain  
If beneath our "stars" I fall.

Let there be a joy of heart,  
That I bravely did my part  
For my country, home and all.  
It is honor thus to give  
Life that Freedom still shall live  
If beneath our "stars" I fall.  
—S. A. Hughes.

## THE CEREMONIALS FOR OUR SOLDIERS.

The fact that during this month there will be continual demands on this county for soldiers and that quotas will be sent almost every week is the special reason why some definite organization should be effected to provide for appropriate ceremonies when the soldiers entrain. The exemption board from now on will have absolutely all the business that it can possibly give attention. While members of the board will of necessity have some part in the ceremonies as each quota leaves, the main portion of the program can properly be taken care of by a citizen organization. It is not proper for one group of soldiers to leave after an impressive program in their honor while others depart in a practically unheralded way.

It has been well suggested that some organization, or committee should take the whole matter in hand and serve in the direction of plans. For example it is quite possible that such a directing committee could arrange with various lodges, churches or other organizations to provide the program for any certain occasion. Such a committee could be in touch with musicians and musical organizations ready to give their services on special occasion. These

are the times that demand co-operation in patriotic effort. In the past the general outlines for these farewell programs have been in the hands of the exemption board but without doubt the board will be exceedingly glad to delegate the authority to some committee or organization to look after the whole proposition. Here is a chance for some individual or group of individuals to take the lead in a very worthy enterprise.

## PREFERS THE ARMY TO POLITICS.

Major B. M. Chipfield of Canton, judge advocate of the Thirty-Third division, Houston, Texas, in a statement issued, withdraws from the Republican race for the nomination for United States Senator. Major Chipfield declares that it would be wholly unworthy for him to leave the army to enter upon a political campaign.

The withdrawal of Major Chipfield leaves only two candidates in the race for the senate. They are Congressman Medill McCormack from the Republican nomination for the United States Senator. Major Chipfield declares that it would be wholly unworthy for him to leave the army to enter upon a political campaign.

"In the coming campaign an effort will be made to divide the loyal vote of Illinois among numerous candidates for the senate," Mr. Chipfield says. "It does not matter so much who the nominees may be, but it is absolutely essential that he be loyal and patriotic, ever putting America first."

Major Chipfield's letter of withdrawal follows:  
"Before the United States entered the war with Germany I announced that I would be a candidate for the Republican nomination for the United States Senate and in pursuance with that announcement I commenced a preliminary campaign.

"Upon the declaration of war I felt that it was my manifest duty to enter the military service of the country and I joined the colors.

"At this time it is very apparent that I will not be in Illinois or the United States during the months when the preliminary campaign for the Senate will have to be carried on.

"It has come to the place where I have to make my choice between leaving the military service for political purposes or to remain here and for the present relinquish my ambition to be a candidate for the senate.

"After a careful consideration of the matter my duty is very plain.

"While my services are needed in the Army, it would be wholly unworthy to leave that service and enter upon a political campaign.

"I would have no right to divide my activities between the army and politics. So I have made my decision to remain in what I consider my post of duty.

"In the coming campaign an effort will be made to divide the loyal vote of Illinois among num-

erous candidates for the senate. It does not matter so much who the nominee may be, but it is absolutely essential that he be loyal and patriotic, ever putting America first.

"To permit my name to be on the ticket in a perfunctory way would help to divide the loyal vote of Illinois and that I have no wish to do.

"I have decided to relinquish for the present my ambition to be a candidate for the United States senate and to continue as I have for the past year to give my undivided time, effort and energy to the service of the country in the field.

## SCHWAB ON THE JOB.

We need more ships for speedy trips across the well known ocean, to carry guns to shoot the Huns, and quell the Teut's' commot. The work has dragged along men bragged on how we'd turn out vessels; we make blue prints and charts in tints, while poor old Europe wrestles. We hem and haw and stall and paw while worn out France is bleeding; and we produce the punk excuse, when ships are what we're needing. But now, methinks, we've lost our jinx, and things will soon be jumping; for Charles M. Schwab is on the job, and we may see him humping. This mighty man has come to plan, to do, and cut out dreaming, and ships of his will shortly whiz for France, their sirens screaming. Farewell to doubt and mental gout, to foolish snarl and tangle, to chawing rags and empty brags, to state debate and wrangle. For Charles M. Schwab is on the job, the tireless early riser, and he'll build boats to get the goats of Carl and O'ther Kaiser. "Build boats!" says he; don't talk to me of reasons for delaying; and there's a lid for every kid who stands around here braying! "Now beat the drums! The giant comes, and no red tape can bind him; oh, Charles M. Schwab is on the job, a trail of smoke behind him!"

## THIS DATE IN HISTORY

May 5, 1863—The 30th Illinois Regiment (Yates Phalanx) is in South Carolina, in General Hunter's Army. When last heard from they were on Polly road, south of Charleston. This is the only regiment that represents Illinois in that department. It is now commanded by Colonel Thomas O. Osborn.

**TOM BUCKTHORPE, JR., ILL.**

Tom Buckthorpe, Jr., is quite ill with smallpox at the home of his parents, Mr. and Mrs. T. H. Buckthorpe, on the Morton road. How the little fellow contracted the disease is a mystery, but the fact remains that he has it and is well "peppered." Mr. Buckthorpe said last night that the lad accompanied his mother on a trip to southeastern Missouri just two or three weeks since and may have caught the disease there. There are many cases of smallpox in Missouri. There has been a case also in South Fayette street in the rear of the fourth ward school building where Tom attends. He ties his pony on Fayette street and it is possible that some child from the family afflicted with smallpox may have touched the pony and thus carried the infection. There are altogether a number of cases of the disease in Jacksonville, several of them at Jacksonville state hospital. However, all are under strict quarantine and the disease is in no way epidemic.

Friends of the Buckthorpe family hope for the speedy recovery of the boy.

SCOTT'S THEATRE

MONDAY and TUESDAY

Douglas Fairbanks

An Artcraft Picture

"Reaching for the Moon"

This is one of the most expensive productions released by Artcraft.

The scenes are laid in America and Europe. An Italian city was reproduced, with canals and gondolas, and a royal palace, with gorgeous costumes and magnificent settings.

Combining comedy with sensational dramatic incidents, a wide range is given Douglas Fairbanks for the display of his athletic skill and exercise of his great artistic ability. This is considered his best work thus far, either on the stage or screen.

One of the most terrific fights ever seen on a screen takes place in the palace in which Fairbanks battles with a half dozen men seeking his life. Vases and statuary are demolished, beautiful draperies ruined and costly furniture wrecked.

SCOTT COUNTY OVER TOP IN LIBERTY LOAN

People Take \$70,000 In Bonds—Than the County Allotment—Funeral Services Held for William Hawk.

Winchester, May 4.—It was announced today that Scott county had over-subscribed its Liberty Loan quota by the purchase of \$70,000 worth of government bonds of the third issue.

Mrs. M. May arrived here this afternoon from St. Louis to visit her daughter Miss Gertrude May, Winchester's popular librarian.

Funeral services for the late William Hawk were held this afternoon at 2 o'clock at the Christian church in charge of Elder J. H. Coates. The auditorium and Sunday school rooms of the church were well filled with relatives and friends. The choir of the church furnished suitable music. There was a great many beautiful floral offerings. Oneida Tribe No. 465, I. O. R. M. of Alsey also assisted in the impressive ceremonies at the church and had entire charge at the grave. The pall bearers were: Charles Willmot, Thomas Hamilton, Thomas Tidball, Samuel Hoover, Jesse Shull, Joseph Montgomery. Interment was made in Winchester cemetery.

Mr. and Mrs. John Hawk and daughter Miss Georgia and son Albert of Merritt were visitors here Saturday and attended the funeral of the late William Hawk.

Mr. Chester Galtier and little daughter left today for Jacksonville to visit relatives. The youngest son of Mr. and Mrs. Thomas O'Donnell is very ill with pneumonia.

Miss Margaret Priest, with members of her Sunday school class of young ladies of the Baptist church, enjoyed a picnic lunch in the Grove west of town Saturday afternoon.

Mrs. Abbie Haymaker of Chapin is visiting her parents Mr. and Mrs. William Hicks.

Mr. and Mrs. Fred Neat, little son Fred Jr., and Mrs. Grandson expect to spend Sunday in White Hall.

Mrs. William Conitas, daughter Ruth, Miss Loretta Coultas and Mrs. Charles Burdick and little son, were Jacksonville visitors Saturday in Mrs. Coultas' car.

Put away your winter woollens in a Wayne Moth Proof Bag. FRANK BYRNS sells these bags.

J. F. Claus, the Oakland dealer, left for Chicago last night to secure some cars for his trade. He was accompanied by Roland Stice and Elmer Wolke and they will drive the cars thru, as this method is much quicker than freight shipments under present conditions.

IN NEW LOCATION We have removed from South Sandy street to our new location, West Side Square. W. L. Alexander Mercantile Co.

WOMAN'S CLUB MAY BREAKFAST The annual May breakfast of the Jacksonville Woman's club will be held at 11:30 at Central Christian church Saturday, May 11th. All members will be solicited at once to buy their tickets in advance and have them reserved. If not solicited phone to the chairman.

AN APPEAL FOR THE Y. M. C. A.

To the Citizens of Jacksonville and Morgan County: The failure of the campaign for our Young Men's Christian Association to reach its goal of \$8,000 by Saturday is a great disappointment to the directors and friends of the association. Only about one-half of the amount has been raised. We cannot believe that the good people of our city and county are willing to have it said in these times that they have lost faith in the Y. M. C. A. If the Y. M. C. A. is worth supporting in the camp and on the battle front, it is worth supporting at home. The directors of the association feel that they are simply trustees acting for the people of the community who believe in the work of the Y. M. C. A. Unless you support the work, he have only one choice and that is to reduce its scope and efficiency to correspond with the amount of your support. However, before taking that backward step, we wish to make one more appeal.

The campaign will be continued for a few days. Additional persons will be solicited for subscriptions, but some friends who have given small amounts will have to enlarge their donations. Friends and officers of the association will interview you again. Be more liberal this time. Let us "go over the top" in this campaign as we have done in every other campaign. All team members are requested to be at luncheon Monday to secure additional names.

Miss Mary Thorndyke of Pomona, California, is back in Morgan county for a short time, but means to return soon, as she has been won by the attractions of the golden state. She is the guest of Mrs. Peter Hamm at Chapin and in California her address is 2386 Hal, avenue, Pomona.

Mrs. George Dougherty, daughter of Mr. and Mrs. D. E. Sweeney, is here from Chicago for a few days, on her way to New York city to join her husband, Lieut. George Dougherty, who is at Columbia University in the aviation corps.

SHOULD ENCOURAGE GROWING OF COTTON

American Growers and Manufacturers Urged to Affiliates With International Cotton Federation—Cotton Will be Scarce after the War.

New York, May 4.—An urgent invitation to American cotton growers and manufacturers to affiliate with the International Cotton Federation was extended by Arno S. Pearce, of Manchester, England, secretary of that organization, in a paper read here today at the joint convention of the American Cotton Manufacturers' Association and the National Association of Cotton Manufacturers.

Mr. Pearce asserted that the views of American cotton men were not considered abroad because they are not represented in the international body which was formed more than fourteen years ago as a result of the Sully "corner" and is composed of leaders in the industry from England, Russia, France, Italy, Denmark, India and Japan. Germany and Austria have been excluded since the war.

"Cotton will be extremely scarce for many years after the war," stated Mr. Pearce, "and its growth should be encouraged wherever it can be carried on with success. Here it is questionable whether the Southern cotton planters would in future find it more lucrative to grow foodstuffs than their old staple.

The American cotton men were asked by their British informant to take an international view of the situation notwithstanding that the United States produces two-thirds of the world's cotton supply. In the five years between 1911 and 1916, he said, America had increased its consumption 1,500,000 bales and within the next five years, he predicted, this country would be using two-thirds of its own yield.

In view of the fact, he said, that the cotton industry is in a "most precarious position," that the world's production and consumption of cotton from 1905 to 1914 only just balance, the following tentative program for cotton belt action in the United States cotton belt by the International Cotton Federation, based upon the Americans becoming members, was suggested:

1. Reforms in compressing with consequent saving in freight and packing. 2. Improved sampling of bales with corresponding economy in cotton. 3. Organization of an efficient crop reporting service thruout the cotton belt. 4. Closer relations between producers and consumers of cotton.

SOUTH JACKSONVILLE RED CROSS ENTERTAINMENT

PAINFUL ACCIDENT

Walter Woods suffered a painful accident Thursday while tearing down an old kitchen at the home of William Richards on West North street. He was standing on a ladder and while on it a wall gave way falling onto him and knocking him to the ground. His right arm was broken in three places and the left arm and one ear badly bruised and a nail ran into his foot. Mr. Woods was unconscious for a few minutes. Dr. Allen M. King was called and attended to his injuries. Friday Mr. Woods was around town and considered himself fortunate that his injuries were not more serious.

HERE FROM CAMP TAYLOR

E. L. Brockhouse came from Camp Taylor Saturday morning and spent several hours in Jacksonville with his brother, E. W. Brockhouse, deputy in the office of County Clerk Boruff. From here he went to Mercedosa to spend the remainder of a brief furlough with his mother, Mrs. Mary Brockhouse. He is in fine condition and spirits and reports that all Morgan county men are well and very anxious to get started overseas.

WAR NOTES FROM ENGLAND.

Automobiles Carry War Films in England.

London.—The new Ministry of Information has sent out a fleet of ten automobile moving picture shows, designed to exhibit war films in villages and outlying districts. The screen is set up in the open air at a distance of about 100 feet from the "cinema-car," and the installation is powerful enough so that even at dusk 20,000 persons can see the pictures with ease. The crews of the ten cars consist entirely of soldiers who have seen service in France.

The selection of films include the usual run of official pictures, one illustrating Great Britain's progress in Zeppelin building, another showing British bomb-dropping squadrons in flight, and several showing America's war effort. The lighter touch is supplied by a number of war cartoons.

Scholarship Election Postponed at Oxford.

Oxford.—The trustees of Oxford University have decided to postpone all further election to scholarships. This will not, however, interfere with the holding of the qualifying examination in the United States or in colonies where qualification is not obtained through affiliation of local universities with the University of Oxford.

For 1917-1918, there are at present eight Rhodes scholars in residence—six Colonial and two Americans.

Cancelled German Rhodes scholarships have been allotted, one to the Transvaal, one to the Orange Free State, one to Alberta and Saskatchewan and one to Kimberley and Port Elizabeth alternately.

London Has Official Sausage Factory.

London.—An official sausage factory is being opened in a London suburb under the control of the Ministry of Food for the manufacture of various kinds of meats which do not come within the rationing.

As the Ministry of Food cannot embark on a business enterprise, the concern has been incorporated as the "National Meat Products, Limited," with a paid-up capital of two shillings. The Board of Directors, nominated by Lord Rhonda, are a number of food experts employed at the Ministry of Food. A Treasury grant has been made of sufficient funds to launch the enterprise, but this sum is to be repaid to the government out of the first profits.

The intention is to put on the market attractive foods made from by-products of the slaughterhouse which have been heretofore wasted. The chief products will be sausages and so-called "black puddings," or meat pies.

Birmingham Women in Munition Works.

Birmingham.—It is estimated that ninety per cent of the industries of the Birmingham district now is engaged on war work. The women of the city and district helped to fill the shops, while thousands of other women came in from the "Black Country" which forms a circle around Birmingham. These latter used all their lives to heavy work, are doing some of the heaviest work in the district and are particularly adaptable in those factories where great heat has to be endured. Another source of labor was found in the Chinese colonies of London and Liverpool.

Queen Heads Women's Army Auxiliary Corps.

London.—Queen Mary has become Chief of the Women's Army Auxiliary Corps. The Queen has for some time been greatly interested in the work of the "WAACs" at home and abroad and on hearing of the good work the corps accomplished during the recent fighting in France, expressed a wish to become Chief of the Corps.

LIEUT. McLAUGHLIN GOES TO FT. RUSSELL.

Dr. and Mrs. Carl E. Black yesterday received a telegram from their nephew, Harry McLaughlin, stating that he had been commissioned a Lieutenant in the cavalry service at an officers' training camp in Texas. He has already been sent to Ft. Russell, Wyoming, from which place he went to the southern camp. He will possibly be located at Ft. Russell in instruction work for a number of months.

JESSE PARRISH IS NOW "OVER THERE"

Mr. and Mrs. Jasper Parrish of South West street have received word of the safe arrival of their son, Jesse Parrish, in France. The young man enlisted in the aviation section of the army and for a time was stationed at the aviation field near Belleville. Parrish makes the third boy from South West street to go across.

RUSSIAN NOBILITY NOW IN POVERTY.

Tokio, May.—Many Russian women formerly of the nobility, are reduced to selling newspapers in the streets, according to Mrs. Okuyama, wife of the secretary of the Japanese Embassy at Petrograd, who has returned here from Russia.

BLUE RIBBON CATTLE LOST AT SEA.

London, May.—It is announced that a consignment of blue-ribbon cattle, recently dispatched from this country to the United States for breeding purposes, has been lost at sea. It was regarded as the largest and most valuable collection of short-horns that has ever been exported from England. The cattle were collected from all the leading herds in England, Scotland and Ireland, and were valued at \$200,000.

NAZIMOVA LAUDS "REVELATION" STORY

Nazimova, the great star of the Metro production "Revelation," which is the attraction at the Grand Theatre on May 9 and 10, realizes the fitness and value of the story as a starring vehicle for herself. In a letter to Mabel Wagnalls, the author, she wrote in part:

"My consent and quick decision to appear in your wonderful story is proof to you how much I value it. I shall treat it as sincerely and passionately as I do everything I attempt. Will you try to think of another picture for me? Your style and thoughts between the lines are charming to say the least."

## FOOD ADMINISTRATION APPEAL

Washington, D. C.

To the Churches of all Denominations and Synagogues of the United States:

The whole great problem of winning the war rests largely on the loyalty and sacrifice of the American people in the matter of food. It is not only a government responsibility, but also the responsibility of each individual. Every pound of food saved by each American citizen is a pound given to the support of our army and the Allies. Every pound wasted or eaten unnecessarily is a pound withheld from them. It is a direct personal obligation on the part of each of us to some one in Europe whom we are bound to help.

Appreciating fully the inspirational power of the churches in the United States, we feel that it is important that closer relations between the churches and the food administration be established.

May we ask that your church assist in this plan and bring home to your membership that individual feeling of responsibility which is so necessary for success?

Faithfully yours,  
Herbert Hoover,  
United States Food Administrator.

Henry Welborne of the vicinity of Orleans was transacting business in the city yesterday.

A GOOD SIGN  
TWO TELEPHONE CALLS BRING  
TWO NASH ORDERS

Whenever an automobile keeps continually oversold, two facts are significant: First, that the automobile is either so far ahead of every other car in its price class that it sells itself; or that the representative of the automobile is a graduate in salesmanship. Not claiming to have qualities of salesmanship superior to those of competitors, it follows that the first named fact is most significant, viz: That the Nash Six, with its "perfected valve-in-head motor," really sells itself. Rainy as it was all day yesterday, C. W. Jacobs, manager of the Jacobs Motor Car Co., received two telephone calls, each of which resulted in a sale of a Nash Six. Both calls came within two hours, one from a prominent farmer and the other from a banker. We are still a month behind with orders.

## POLICY and QUALITY

The same dependable policy under which we began our forward march fifteen years ago—the same dependable policy that has carried this store on the top wave of popularity these fifteen years, and added more enthusiastic customers to its following than any like store in the state can boast of, is the policy that protects you in every purchase from a nickel's worth of Epsom Salts to a twenty-five dollar camera.

But we don't stop at talking POLICY and QUALITY. We talk PRICES too. Here are some of our proof-of-policy prices, made with the sole excuse of getting you in our store during these trying days of repairs and general torn up conditions.

## A COMMUNITY HIGH SCHOOL

## Twenty-five for and a Like Number Against An Institution of This Kind

In a few days the voters of a community embracing practically one hundred square miles of which Jacksonville is the center will be called upon to say whether or not there shall or shall not be a Community High School for all the high school students of this district. This is a large and very important question which every voter should study carefully before casting a vote. Let us urge every citizen to study the question and not fail to cast a vote on this vital question. The citizens are just beginning to study the question seriously. Here- in adjoining columns are various arguments or reasons for and against a Community High School.

The twenty-five reasons given below are by no means all of the reasons which should influence voters and interested citizens are at liberty to submit other reasons for consideration. The list given below is picked up from many sources and is given to stimulate discussion of the question. Every one should read carefully and give serious consideration which so important a question deserves at the hands of the voters:

## FOR A JACKSONVILLE HIGH SCHOOL

1. Should cost \$250,000 under present conditions.  
2. Per Capita cost of construction \$113.33 to \$622.22.  
3. Jacksonville district has a building site and \$113,000.00 on hand.  
4. To accommodate 400 to 600 pupils.  
5. Jacksonville has reached the limit of revenue for educational purposes and the amount is not sufficient.  
6. The present site could be used and could be enlarged.  
7. Present site should be enlarged at a cost of from \$10,000.00 to \$30,000.00.  
8. Limit of taxation in Jacksonville would be 3c for all schools (the people may vote 1/2c from building fund to educational fund).  
9. The building fund (from insurance) now in the hands of the Board of Education can be used and the balance necessary can be levied by the Board or it may submit to the people the question of issuing bonds.  
10. The taking over of the High School by the large community will give Jacksonville District \$91,500.00 to add to its building fund for grade and intermediate schools.

11. The indebtedness of Jacksonville District will be continued and increased until relieved by a vote of the people, taking 1/2c from the building fund and placing it in the educational fund or by legislative action.

12. The present site can only be sold to the community district by a vote of the people of Jacksonville.

13. Facilities necessarily limited by taxing ability.

14. Departments in city will be limited.

15. Taxes will be confined to city.

16. All cities in Illinois as large or larger than Jacksonville excepting six have city High Schools.

17. The Non-High School Territory of the County must pay tuition for any students wishing to attend the Jacksonville High School.

18. High School opportunities are available to the country school student thru the city High School.

19. All City High Schools have as serious financial conditions as confront Jacksonville and must secure Legislative relief before a sufficient variety of courses can be provided.

20. With increased funds voted by the legislature courses of interest to our agriculturists can be added.

21. Many consider separate schools as the best way to unify the town and country.

22. Many efficient High Schools have less than 500 pupils.

23. Can rebuild without vote by the people.

24. A Jacksonville board for a Jacksonville School.

25. Many think the best business and social relations will be preserved by the old plan.

3. Must all be raised by bonds or direct taxation.  
4. To accommodate 600 to 800 pupils.  
5. Would have a sufficient amount of revenue.  
6. Should have at least 20 acres of ground which means a site near the city limits.  
7. The site should cost \$6,000.00 to \$8,000.00.  
8. Limit of taxation in Jacksonville would be 3c for grade school and 3c for Community High School.

## THE COMMISSION FORM OF GOVERNMENT.

(By W. N. Hargrove.)

Some people say that it makes no difference what the form of government is—that it is a question of who is in office whether the government is good or bad, if we have good officials we have good government, if we have bad officials we have bad government. That contention is not without foundation in fact. A monarchy with a good monarch as ruler would be a good government, and a permanently good government during the life or reign of that monarch.

But the American People long ago declared and established with their blood and lives for us the liberty to have self government and to have representative government, it is a precious right, and they who would abandon that liberty are not fit to be American citizens, but are of the blood of slaves or serfs. He who would yield knowingly the rights and liberties of a free born American Citizen for himself and for others is or should be an object of contempt of all good American citizens.

There is lots of difference in being served by a public servant or a private boss. For instance did you ever notice the difference in service at the Post office and at the Railway station. The public servant at the Post Office is uniformly agreeable, prompt and accurate at the window or telephone while the railway agent won't answer a telephone half the time and would not tell you accurately how the train was if he knew. If the train was an hour late and you called over the phone it would be "on time" and you would spend a useless hour at the station. The reason of it is that the Railway Agent is not a public servant of a representative government, but the Post Office employee is.

Did you ever have a matter up in the City of Jacksonville for consideration under the old aldermanic form, if you did you had a representative who was elected

from your ward to present it for you—and you had a chance to hear and know how each alderman considered it. Did you ever have anything up before the City Government under the commission form, pavement, sidewalk, or any other matter—who was there to represent you and what consideration did you receive? I never knew of any one receiving any consideration to their protest except the College avenue pavement and it had every strong influence with it. If it had been a protest from the First, Second or third ward instead of from the Fourth what consideration do you think it would have received? Don't you all the time feel the lack of consideration from the City Government. The city officers are not busy caring for you, they are busy caring for their private business while drawing salary from you. They are rulers not representatives. They really don't know if the City Hall is their private property or not, so I have heard. They say it is being used as a private storage room or garage by some of the city officials. But I am thankful its no worse. Like

### ON GUARD AT CAMP; SHOOT DESERTER

Wayman Fisher, Local Man Stationed at Newport News, Va., Killed Soldier Sneaking Away in Darkness—Wins Prize as Sharpshooter in Recent Contest.

Rev. and Mrs. J. H. Fisher of this city are in receipt of a letter from their son, Wayman Fisher, who is now at Newport News, Va., telling of a recent happening while he was on guard duty at the camp. A man, whose home was in Terre Haute, Ind., attempted to make his escape from the camp. When ordered to halt, he started to run and the guard fired, killing the man instantly. Young Fisher's letter follows:

Newport News, Va., April 30, 1918.

My Dear Mother—I know you are tired waiting to hear from me, but it was not because I had forgotten you; it was simply because I didn't want to write until I got stationed. Dear mother, how are you getting along by this time? I am getting along fine, but would like to be home for awhile; it isn't so lonesome, but I just would like to be home for awhile anyway.

Well, mamma, for the first time in my life I have taken a man's life. He was from Terre Haute, Ind., his name was John Gowans, a tall, bright fellow and clean face, about 40 years of age. You see, I was just on guard from 12 to 3 o'clock in the morning and was given orders to shoot the first man trying to leave the camp. He came sneaking out, and I told him to halt, but instead of halting he started to run. I put it on him; if I had not and he had gotten away then most likely at sunrise I would have got the same thing he did. I was in the guard house two hours for it. My captain praised me for it.

Mamma, will you please have some new pictures taken and send me one of them so I may look at it every night before I say my prayers. I pray every night before I go to bed. I went to church the first Sunday night I was here. It was a swell church, too. When the soldiers get passes here to go to town they are only allowed one street, and that is the street the church is on, and if they go off that street they are put in the guard house for six months. We have a German soldier in the guard house who will be sent to Leavenworth, Kan., for the duration of the war. I am getting to be quite prominent in Camp Hill and everybody knows me as the cornet soloist. I play a solo every Sunday at chapel. I am assistant band teacher, and I am my captain's orderly. I won first prize in my battalion for sharpshooting. They gave me a brand new fifty dollar automatic pistol with pearl handles. I am proud of myself and of my parents.

I wrote to Aunt Josie, but I told her not to answer until I wrote her again, so I guess I will write to her now while I am writing. Well, mamma, don't worry about me, for I am doing nicely and will try and get home about July the fourth or some time like that. Bye, bye.

### MORE HELP NEEDED IN LOCAL BOARD OFFICE

AUTHORITY GIVEN TO PREPARE FOR BUSY DAYS.

Morgan's Next Quota Expected to Be 125—Large Number Must Be Summoned on Account Agricultural Claims—Seven Going to Ft. Thomas This Week.

The next call for troops from Morgan county will probably be for about 125 men. The local board of Morgan county has not yet received instructions from the Adjutant General, but the exact quota of Morgan county will be known very soon.

Yesterday Major June Smith of the adjutant general's office sent a telegram to Miller Weir, stating that many local boards have not completed the examination of all registrants in class 1 and suggesting that if this condition exists here that immediate steps be taken to complete the physical examination of all class 1 registrants within seven days.

Mr. Weir replied as follows: "I am in receipt of your telegram of even date in regard to examination of all registrants in class 1 at this time not examined. I am pleased to notify you that our medical board instructs me to say that all registrants have been examined up to date where their cases have been acted on by the district board. This work has been attended to as rapidly as the district board has acted upon the various appealed cases."

That the department recognizes how great is the amount of work which will come to the local board because of the large number of men soon to go to camp was indicated by a letter just received authorizing the employment of an additional clerk in the office after May 15. The board has the further authority to employ one additional clerk for each 100 men required to be entrained. It is understood that the Morgan county quota will entrain during the five days beginning May 25.

Seven to Ft. Thomas. Seven men are to be sent to Ft. Thomas, Ky., Friday, May 5. They will leave on the Wabash train at 5:20 and take the B. & O. out of Springfield for Cincinnati, with the expectation of reaching camp about 9 o'clock Saturday morning.

The board has not definitely chosen seven men to be sent, but they will be selected from the following:

Francis M. Williams, Anna, Edward H. Schaefer, Meredosia, F. L. Vedder, route 2, Jacksonville.

Salvatore Russo, Jacksonville, C. E. Reynolds, Waverly, Russell Goosh, Jacksonville, Muriel E. Cain, Goodson, A. E. McDaniel, Chapin, L. F. Floyd, Meredosia, H. A. Crocker, Paris, Louis A. Cain, 223 East College avenue.

W. H. Weber, Meredosia, Daniel A. Ballard, Meredosia, Edward H. Weber, Meredosia. It is known that three of the above will be in the party, Edward Schaefer, Francis Williams and Clarence Reynolds.

Will List Men for Next Quota.

The board Monday will send out notices to all men who are to leave for Ft. Thomas during the week. Very soon also notices will be sent to a provisional list of men to provide for the next quota to be sent in accordance with the provost marshal general's orders. It is estimated that it will be necessary to select about 200 men from class 1-A in order to secure the necessary number. There will be certain to be a considerable number of men who are temporarily excused from military service on account of farm work. When the last fifty men were sent to camp it was necessary to summon more than double that number in order to secure the allotment.

While the board some time since completed the examination of men in class 1-A there are now about thirty-nine men remaining in the class for physical examination and they will be summoned to appear Monday, May 13, for examination. These names come into the class on returns from the district board. Altogether it is quite a fact that the exemption board faces days and weeks of increased activity and the services of additional workers will certainly be necessary.

### L. B. TURNER LEADS LETTER CARRIERS

Tops Both City and Rural Carriers in April Sales of War and Thrift Stamps—John Higler and W. T. Hughtett Tie on Sale of Thrift Stamps — Frank Bourn Leads Rural Carriers.

During the month of April, twelve city carriers and one substitute letter carrier sold 3,229 War Savings Stamps and 4,282 Thrift Stamps, valued at \$17,115.50.

The eight rural carriers sold 2,450 War Savings Stamps and 940 Thrift Stamps, valued at \$12,495.00.

The combined sales of city and rural carriers were 5,679 War Savings Stamps and 5,222 Thrift Stamps, valued at \$29,610.50.

Lawrence B. Turner, city carrier No. 3, has the honor of making the highest sales, having disposed of 1,049 War Savings Stamps and 688 Thrift Stamps, valued at \$5,417.00. Mr. Turner made a clean sweep by selling the greatest number of War Savings Stamps of all carriers, both city and rural.

Frank Bourn, rural carrier No. 8, is high among the rural carriers. He was second to Mr. Turner in total sales, having sold 1,000 War Savings Stamps and 481 Thrift Stamps, valued at \$5,017.00.

## CHICAGO TAKES EIGHTH STRAIGHT

Reds Shutout By Tyler in 1 to 0 In Pitchers' Duel With Eller—Giants Still Winning—Other National League Games.

Chicago, May 4.—Chicago made it eight straight games today by shutting out Cincinnati 1 to 0 in a pitching duel between Tyler and Eller. Hollolocher's walk, Plack's sacrifice, Mann's single and a sacrifice fly by Paskert scored the only run of the game.

The visitors had two opportunities to score but two fast double plays spoiled them. "Rowdy" Elliott catcher of the locals who has enlisted in the navy and expects to report to Mare Island in a short time was presented with a wrist watch by his teammates.

## W. L. ALLCOTT WRITES WHILE AT SEA

### Parents of Young Man Now With Troops in France Receive Interesting Letter Written Aboard Ship.

William L. Allcott who is now with the troops in France wrote his parents the following while at sea:

April 12th, 1918.

Dear Folks: Just a few lines to you all. Am now on my 12th day out and will arrive in France Saturday morning, 5000 men aboard. Left New York on Saturday night, the 30th of March at 8:45.

The Goddess of Liberty sure looked wonderful as we sailed away. Have had a very fine trip, but it gets somewhat tiresome when you see nothing but water day after day. There is absolutely no danger, from the way these big liners are guarded. We have had three big liners, a battleship and two destroyers along with us, until today, when twelve other destroyers met us.

Have had all kinds of drills, teaching us how to abandon the ship. Have only been sick one day and then will say the sea was sure rough. We are on the "President Lincoln," an old German liner. We sighted a submarine one day but one shot fired from our ship soon put it out of sight. Aside from this we have had little excitement.

I found a pocket book containing \$1500. Of course I gave it to our captain, and he restored it to the owner. Since I have been much talked about and have received many compliments for my honesty.

I enjoyed my short stay at Camp Merritt. It is a "regular camp." I sent you a money order from there. Let me know whether you received it.

Have been reading a great deal on this trip. Finished my third book. Tell mamma I have started a new rule, that is, I read one chapter in the new testament every night. Very interesting.

Our captain tells us we will be sent immediately to school upon our arrival. Eating on the ship fine. Have written about all I know. You folks will have to do most of the writing on account of the strict censorship. I am perfectly well and happy. Don't worry about me. Will write immediately after my arrival.

Lots of love to you all. Write often.

Your loving son,  
William.

## True Patriotism Is Economy

We who remain behind have our part to perform. The business man and farmer must work in the most perfect harmony. It is trying on us all, but we must not complain. Just work, but work to help the other fellow. Selfish interests must be forgotten. Work to produce the maximum. More and larger crops must be grown by less labor. The ground must be put in proper condition for quick germination and a continuous growth. Therefore, be prepared. A most important tool is the Disc Harrow, and Drag Harrow, and where can you obtain the equal of the FAMOUS OHIO.

A DISC HARROW built for service, with penetrating qualities that are equal to any. Extra strong construction. Anti-friction bumpers. Hard maple boxings, with hard oil cups. Very flexible. Will conform to any uneven surface. Light draft. Levers conveniently located. Scrapers conform to disc and are oil tempered steel. Connection of gangs has the drop frame construction. The draft bars are so formed that they give an even pressure on disc blades no matter at what angle they are set. The discs are the best to be had. Very hard and perfect scouring qualities.

## OUR CASH DISCOUNT SAVES YOU MONEY

One of the strongest built U-Bar HARROWS on the market. Extra flexible, allowing the harrow to conform perfectly to uneven ground. Teeth of best tempered steel. Each tooth is headed by hand, assuring a perfect head which prevents them from dropping out should clamps become loose. The teeth are spaced and arranged so they cut all the ground and will not trail or track. They are also held in place by a specially designed clamp, bolted directly through the bar. The levers which regulate the angle of the teeth are amply long and convenient, permitting easy operation at all times. Frame extra heavy and of very best of material.

trive To Have  
Healthy Skin

Next time you are in a gathering  
women note the different condi-  
tions apparent in complexion. You  
ill see some filled with blackheads,  
me dry and rough, some smooth  
and greasy, some smeared with  
luge, some streaked with heavy  
etallio powders and once in a while  
u will see one that is a demon-  
stration of intelligence from every  
int of view. The color is rosy, the  
in is clear and smooth, the pores  
in small and open, the powder does  
nt show on the firm vigorous skin.  
very woman can have a good com-  
exion if she will only use a little  
scretion. If you would acquire real  
auty, the beauty of perfect health,  
u must replenish your worn-out  
erves with lecithin. Nature's own  
erve restorer, and put into your  
ood the invigorating from which  
ature intended it to have for  
ealth. In most of the modern foods  
here and other vitalizing elements  
ave been largely eliminated. Yet  
o be healthy and beautiful the sys-  
em must have them. They are  
und in Bio-feren, not only in prop-  
er proportions to restore weakened  
itality but in such form as the sys-  
tem can best assimilate them.

A treatment of lecithin and iron  
oponates as combined in Bio-feren  
renews the appetite, aids nutrition  
nd invigorates the patient.

And Bio-feren in its tablet form is  
ay and palatable to take—no liquid

Iron discoloration of the teeth, no  
unpleasant taste.

There is no secret or mystery  
about Bio-feren. Doctors prescribe  
it regularly because they know ex-  
actly what it contains as well as  
what it will do and they know they  
could not formulate a better up-  
building tonic.

The action of Bio-feren on the  
system is so beneficial. We are  
sure of its giving you positive health  
and vigor, providing, of course, there  
is no serious chronic ailment such  
as cancer, tuberculosis, etc., that we  
only sell it on the condition that you  
agree to return the empty package  
and accept a refund of your money  
unless you are entirely satisfied.

There is no use waiting for health  
and beauty. It is better to do things  
today than tomorrow. Go to your  
physician today—right now—he will  
advise Bio-feren. Then start taking it  
at once as he advises or as direc-  
tions on the package call for. The  
guarantee protects your money. In-  
teresting booklet may be had for the  
asking.

druggists or direct if your druggist  
can not supply you. The Sentalal

## MAVERICKS

You've bought bonds and  
war stamps

There is no reason why.  
You should not dig down again  
And give your bit to the Y.

South Sandy street is proving  
itself deserving of the name.

Twelve of the leading sport  
writers of the country have  
picked the White Sox and  
Giants to repeat this year. If  
they can carry that handicap and  
win they surely are high class  
ball clubs.

**Must Have Bought His Coal.**  
Every time we notice a head-  
line about a mob we at once look  
to see if some mine operator has  
finally got what was coming to  
him—Warren Luttrell, Franklin  
Times.

There is a splendid opportu-  
nity now for some of the pa-  
triotists who want to help the city  
to volunteer their services as  
firemen, patrolmen and workers  
on the streets. A number of  
jobs are open and from indica-  
tions more men will resign soon.

**Men and Women.**  
A little girl wrote the follow-  
ing composition on men: "Men  
are what women marry. They  
drink and smoke, but don't go to  
church. Perhaps if they wore  
bonnets they would. They are  
more logical than women, also  
more zoological. Both men and  
women sprang from monkeys,  
but the women sprang farther  
than the men."

From present indications some  
citizens who have been bemoan-  
ing the fact that they are too  
old to enlist will have an oppor-  
tunity to do their "bit" over  
here.

General Jack Frost executed a  
banking movement on the war  
gardens in this sector last Tues-  
day evening. Reports indicate  
that the casualties were exercise-  
ly large in the potato and tomato  
divisions.

The dispatches tell us that Mr.

has absorbed some of the type  
of journalism that the Record-  
Herald represented.

on the White House lawn. It  
seems to us that a sheep will not  
have much chance in Washington.

## POLICE WOMEN

There may come a time when  
our women will have to do police  
duty, and it is said that they have  
done noble work in this line in a

few cities of the United  
States. A woman,  
however, must be per-  
fect physically, and  
strong, to take over  
men's duty. The house  
work for the mother  
or housekeeper at  
home is often beyond  
her strength. It must  
be lightened in some  
way or other. Very  
often the worries and  
cares are much great-  
er than the actual phys-  
ical labor, but the feeling  
that this or that cleaning, sewing, etc.,  
must be done, fatigues the mind  
more than the physical labor actu-  
ally tires the body. No wonder  
the tendency of our times is for  
the young women to prefer work  
in office or factory rather than  
doing house drudgery. If the  
woman of the family is run-down  
with the distressing complaints pec-  
uliar to women, she should give  
instant care to those organs  
which are so important for wom-  
anly health. Doctor Pierce, the  
specialist in woman's diseases and  
founder of the Invalid's Hotel, at  
Buffalo, N. Y., put up his "Favor-  
ite Prescription" nearly 50 years  
ago, made entirely of roots and  
herbs, without alcohol, that puts  
the womanly health in proper con-  
dition. The catarrh is cured, and  
in consequence backache, dizzi-  
ness, fainting spells are dispelled.  
Send 10c to Dr. Pierce's Invalids'  
Hotel, for trial package of tablets.

Chicago, Ill.—"I have used Dr.  
Pierce's Favorite Prescription,  
Golden Medical Discovery and  
Pleasant Pellets. When I started  
to take these medicines I was so  
weak I was not able to do my  
work. My doctor is surprised, for  
he wanted to operate. I weighed  
at first only 130; now I weigh 155  
and feel fine. I hope this will  
help others for it is very hard to  
be sick."—Mrs. Hannah Kirby,  
4622 Fairfield avenue.—Adv.

was his surprise to find a head  
under it, and hear a voice calling  
for help.

When the man was extricated,  
he said, "I was on horseback."  
So together they proceeded to dig  
out the horse. The horse's  
mouth was found to be full of  
hay taken from a wagon which  
had sunk still farther down.

APPALONIA MEETING  
NETS \$3,030 FOR STAMPS

Enthusiastic Meeting Held for  
War Savings and Thrift Stamps  
—Addresses by O. E. Tandy and  
Mayor Rodgers—College Corner  
Meeting Nets \$500.

An enthusiastic patriotic meet-  
ing was held at Appalonia church  
Friday evening in the interest of  
the War Savings and the Thrift  
stamp campaign. O. E. Tandy,  
Mayor Rodgers, C. E. Seymour  
and C. A. Boruff were in attend-  
ance at the meeting.

A total of \$3,030 of War Sav-  
ings and Thrift stamps were sold.  
Edward Criswell was chairman of  
the meeting. After prayer by Rev.  
Mr. Pierce a patriotic program  
was given by the children. Mayor  
Rodgers then made a brief address  
and was followed by O. E. Tandy  
who delivered the principal ad-  
dress. Holland Burnett subscribed  
for \$500 worth of stamps. W.  
E. Turnbull offered to take one  
dollar for every dollar subscribed  
up to \$500 and thus became a  
\$500 subscriber.

**College Corner School.**  
The College Corner school south  
of Franklin had its closing day  
exercises Friday. The entire day  
was taken up with various forms  
of entertainment and a family  
dinner was given at noon.

In the afternoon a patriotic  
meeting was held with Orien E.  
Tandy, Father Smith and James  
Kenney as speakers.

Mr. Tandy spoke on War Sav-

ings stamps and sold \$500 worth  
of stamps. This brought Mr. Tan-  
dy's total up to \$18,530. The  
people in the vicinity of College  
Corner had previously bought a  
large amount of stamps but Mr.  
Tandy succeeded in selling more.

Miss Grace Armstrong is the  
teacher of the school and closed  
a very successful year. The young  
lady has been retained for another  
term.

The ladies of the Women's  
Council of National Defense serv-  
ed refreshments during the even-  
ing and realized a neat sum.

Mr. Tandy will go to Waverly  
Friday, May 12th to speak at the  
high school, where a large meet-  
ing will be held. Hon. James  
Graham of Springfield will be one  
of the speakers.

**The Grand Laundry offers**

nity to earn Thrift Stamps by  
calling at our office, regis-  
tering your name and get-  
ting a card which will tell  
you the condition to which  
you are entitled to Thrift  
Stamps.

## Exactly What the Famous Edison Tone Test Demonstrates

Picture a concert hall crowded with discriminating music lovers. On the stage stands a renowned Grand Opera Star: Ciccolini, for example. He begins to sing some famous aria. Thru the vaulted interior peals a glorious tenor voice, brilliant, resonant, warmly dramatic, of splendid volume. The audience sits entranced. Suddenly a rustle of interest is felt. Each face betrays wonderment, astonishment, stu-

pefaction. What miracle is this! First one, then another has noted that the singer's lips have become motionless. And yet, clear and vibrant, fully sustained, the aria continues. Unquestionably Ciccolini is still singing. Not one shade of difference can be detected. But his lips have stopped moving. What is the explanation?

It is simple. In a sense the artist is still singing.

## The New Edison

"The Phonograph with a Soul"

which stands beside him is playing one of his records. When he stopped the record continued. And so complete and perfect is the Recreation of the artist's voice that the listeners cannot credit the fact that he has ceased. This is our famous tone test which has been made by thirty different artists. This is this daring parallel, the searching trial which satisfies the most confirmed skeptic that Thomas A. Edison has evolved a new art; that in the

New Edison he has succeeded not merely in imitating, but in actually Re-Creating, the voice of the living artist.

Have you ever heard of any other manufacturer of a sound-producing instrument who dared risk this acid test; who dared submit to the daring parallel?

Come in for a demonstration and see for yourself just what we mean by Music's Recreation.

## CLOSED SUCCESSFUL SCHOOL TERM

Miss Lena Wilson, teacher of Sherman school, located north of the city, closed a successful school term Friday. The event was celebrated with a big basket dinner, which was enjoyed by patrons and friends of the school. A program

was given by the children, which was greatly enjoyed. Miss Wilson is the daughter of Mr. and Mrs. David Wilson and will spend the summer vacation with her parents on West North street.

## EARLY PLANTING.

C. P. Henderson planted ten

acres of corn Friday which is the first field planted this season in the county so far as the Journal knows. The field was stalks having borne a crop last year and this fall will go into small grain as Mr. Henderson is not a soil killer.

## THE COMMUNITY HIGH SCHOOL

(By J. Marshall Miller.)

I have just read Julian P. Lippincott's article on "A Community High School," and while he and I are personal friends, I feel called upon to make reply in the interest of our schools and the taxpayers. No one will be surprised that lawyers differ in their opinions.

I have spent considerable time of late, reading and reflecting on the school law and the tax question with reference to the interests of the public therein. The article in the Jacksonville Journal of Thursday morning, signed "School Patron," I heartily endorse. Mr. Lippincott says:

"The present site of the ruins of our high school building would not be available for a community school." "Where do you suppose the site would be?" I ask in all candor why is it not available. True the site is a part of the property of the city schools. Now if the school district of the city of Jacksonville (117) is merged, for high school purposes, into a large community district, the city is relieved of the expense and duty of erecting a high school as a city on the old site. It is hardly probable any ward school building would be located there. Is it now fair to assume that when the people are asked to vote upon the location of a community high school, that the present site would be selected for the new school building? Such a choice is proper and altogether probable. Does anybody think the present school board would act the part of "dog in the manger," and refuse to convey the present lot to the newly elected board, or the new district? No. There is nothing in the law which would prevent such conveyance, possibly as a gratuity, or at a nominal sum. Suppose they convey it at salable value. The money will be used for a good cause—the city schools. If the people want the present site for the community school and the present board has no use for it, is it not going to be the sensible thing to make the transfer to those who probably will want to buy it? What practical difference does it make to a family if the father transfers the title to their residence to his wife? Will not the family continue to live there just the same? And that father can not be ousted therefrom. We, the people of the larger community, would own what the smaller district did own and we furnish the tax money to build the new edifice. The greater includes the lesser. The individual burden of taxation will in reason be lessened. Why should an individual of our city school board say the present site "is not available?" I have no doubt a central, close in, site will be selected even the condemnation proceedings have to be resorted to in court.

It is also stated the insurance money from the loss of our high school building is not available for a community high school. Suppose that is a fact. Then use it in our ward school buildings and make them conform to legal requirements in lighting, ventilation, sanitation, needed repairs and improvements. I think it would be a good plan to use this money in getting our schools on a cash basis. For many years the school boards of the city have had to anticipate the tax money of the following year. Even to 75 per cent I am told. Stop and think how many thousands of dollars in interest has been paid to banks to carry our school budget. Such conditions are not the part of business sense or economy.

Again we are told "the present high school and all its traditions would be history—its traditions extinct; the traditions fast fading history." I cherish the memories of Jacksonville's high school system—I went thru it as a pupil. I wish our city would not try to live on the history of the past. I feel like I could make a speech on the lost opportunities of Jacksonville to review, but might serve as an incentive to do something better at the present and for the future.

At one time Jacksonville had a good opportunity to have the main line of the Burlington railroad run thru the western part of Jacksonville. Certain influential citizens opposed it vigorously and the road was located where Chapin grew up. One the Alton railroad wanted to secure the right of way along the region of our town brook in building a road from here to Kansas City. A mayor and some aldermen opposed it so vigorously that the road was built from where Roodhouse now is. Jacksonville lost the terminal point on this railroad which had it been allowed to locate here would have brought the C. & A. "air line" from Springfield here instead of to Murrayville. Time and space failed me of many other examples might be cited. I wish we might be able to forget some of our short-sightedness in the past as a city. I hope the citizens of Jacksonville will believe in greater city, and greater schools—the best asset and the greatest financial asset, we have.

The idea is conveyed in this Courier article that the city, as a populous community, might be taking unfair advantage of a sparsely settled rural surrounding community. Surely South Jacksonville with no high school is a fairly populated region. And it lies only on the other side of Michigan avenue. I feel they should become a part of the community high school for the mutual good of both the old city and the new. I believe the time will come when South Jacksonville will realize her mistake in being a separate municipal corporation, and living without a water works system, a sewer system, a high school or fire protection. South Jacksonville should be a part of Greater Jacksonville. South Jacksonville seemed to fear that she might become a part of our city and Mr. Lippincott was the attorney who was instrumental in organizing South

Jacksonville. And excuse me if I believe it was a mistake all round. Combination of effort and interest is the modern idea in school affairs as has been learned in business affairs. Competition is no longer considered "the life of trade." The day of selfish individual effort and small circumscribed community interest is and should be a thing of the past.

But Mr. Lippincott's article says "if the community plan shall carry our high school will be thereby legislated out of existence, the teachers will be ipso facto discharged." Of course, and a new, greater and better high school will take its place. From the ashes and ruins of the old high school a greater can arise. But the teachers will be discharged. The ward teachers cannot be adversely affected, and the high school teachers I supposed were employed by the year only. It is only natural and probable these same teachers would be employed under the new regime. All save our capable high school principal; whom we shall lose, simply because we have not the school funds to raise his salary as another city has offered. The fact is Jacksonville has not the means to raise the salaries of her teachers as they deserve, and year after year we lose our instructors when they have become of the most value to our schools.

Will not this community get a progressive, aggressive, live idea and get out of old historic ruts and grasp a vision of a new day, and embrace an opportunity? We stand at the forks of the road—the parting of the old ways.

## SPECIAL SERMONS AT GRACE CHURCH

The Thrilling Story of Bernhardt's Secret Visit to This Country.

Dr. F. B. Madden announces that "The Orbit of the Divine Movement in World Affairs" will be the theme of his sermons today at Grace church. In the morning he will speak of the movement as seen in national life and in the evening as it is seen in individual life. At the morning service Mr. Madden will tell the story of the secret visit to the United States of General von Bernhardt, "the most notorious officer in the general staff of the German empire." The story is not generally known and was published in "The Tor-

onto Globe", whose editor, James A. McDonald, LL. D., is "a publicist and an orator, honored on two continents." The secret mission had the approval of the imperial authorities at Berlin, and for this service the German cavalry general and author was honored by the kaiser. The incident confirms the confession of Prince Lichnowsky, imperial German ambassador to Great Britain in 1914, which confession fastens the blood-guiltiness for the war irrevocably upon Germany.

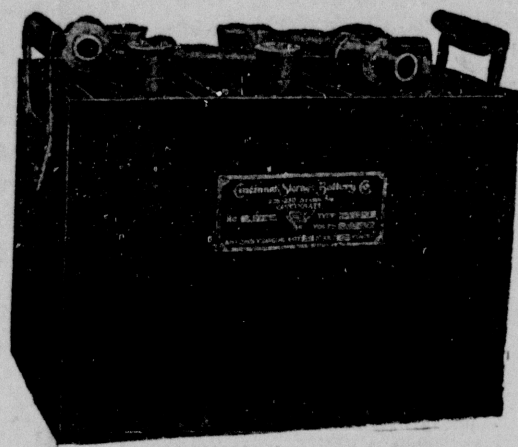

## MOVEMENTS OF MR. HEIMLICH

D. T. Heimlich arrived home yesterday to spend Sunday and tomorrow expects to start out again. He is accompanied by two men from the state university at

Urbana, one who speaks on stock and soil and the other Mr. Heimlich on poultry, and also something in the way of triticism. They have been received and have covered in territory. Last week they visited Kinnmundy, Christian, Findley, Holland, Pana and week they expect to call at N. phaboro, Marion county, wind up at Shelbyville. They urging all possible effort to the war with food supplies.

Miss Freida McDonald of ghia is in the city visiting relatives. She expects to leave for an extended visit at Los Angeles, Cal.

George Coker was up to city from Plagah yesterday.

## The Battery for Your Car

The Battery Plates in the Cincinnati Storage Batteries have a greater surface than those of any other battery of the same dimensions and therefore they render a more positive and powerful starting service.

THE CININNATI STORAGE BATTERY IS THE ONE YOU SHOULD HAVE IN YOUR CAR BECAUSE—

It is designed and built especially to withstand the severity of starting and lighting service.

There is no service which can be required of a storage battery that is as hard on it and in which it is subjected to such abuse as in starting and lighting service.

With a full knowledge of the exacting requirements, this battery is offered with the positive assurance that it will fulfill the service required of it

to the complete satisfaction of the car owner.

The Cincinnati Storage Battery embodies many special features which are the result of years of experience in the building of electric storage batteries of all sizes and for all purposes.

Every feature of this battery has been designed for the special purpose of starting and lighting service and it has a more positive and higher starting ability than any other battery of the same dimensions.

## The Supply of Super-Sixes Is Running Low

Our Allotment Has Been Reduced—The Sales Demand Increases

It is well for all who plan buying Hudson to know these facts:

It never was so difficult to plan for the future.

The newspapers have told you how automobile production has been reduced and how further curtailment is planned.

Our schedule of Hudsons for the future has again been cut down, the second revision since January.

When the factory had an opportunity during the winter months to build cars in excess of the demand, freight conditions made it impossible to get necessary shipments through to us. Now the production is reduced and will become still lower.

Present deliveries are just about enough to meet present needs.

As the season advances an acute shortage seems inevitable.

Then people will offer premiums for prompt deliveries of good cars.

It will come early to the Super-Six because of its popularity.

More than 50,000 users already know its reliability.

These are times when proved cars are in greatest demand. Men want cars they know they can rely upon.

They know the difficulty they will have, with the scarcity of automobile mechanics, if they get a car that calls for undue service attention.

That is why Super-Six sales are so great.

It is why you should buy now if you plan buying at all.

If the car you now have is not fully dependable, you should change it without delay.

The production for the future may make it impossible if you wait.
